EDUCATION

Guru Ghasidas Vishwavidyalaya

Bachelor of Technology in Information Technology

GNM College

Class 12

Modern Public School

Class 10

December 2020 - May 2024

Chattisgarh, India

April 2017 - April 2019

Prasathua Bihar India

March 2008 - April 2017

kudra Bihar India

PROJECT

Online Food Delivery

- Develop a user-friendly and responsive website or mobile app for customers to place food orders.
- Create an intuitive interface that allows users to search restaurants, view menus, and make selections easily.
- Display restaurant menus with high-quality images, descriptions, and pricing.
- Include search functionality for users to find specific dishes or cuisines.

Stock Price Prediction

- Gather historical stock price data, including open, high, low, and closing prices, along with trading volumes.
- Consider additional relevant features like market indices, news sentiment, and economic indicators.
- **Model Selection:**
- Choose appropriate machine learning algorithms such as linear regression..
- Consider time series models like LSTM for capturing temporal patterns.

Technical Skill

C++, Python, MySQL, Data Structures and Algorithms, Object Oriented Programming, DataBase and Management Systems, Computer Networks, HTML, CSS, JavaScript

ACHIEVEMENTS

Code Studio: Solved over 130+ Questions ,Rating 5240 (Jan '23- Present)

Leet code: Solved 138+ DSA Questions

Geeks for Geeks: Solved 95+ DSA Questions

LANGUAGES & INTERESTS

- Hindi , English
- StockMarket ,Chess, Cricket
